

species	migratory status	# eggs	incubation length (days)	nestling length (days)	food preferences	nest type
House Sparrow	resident	4-5	11	14	primarily granivorous	secondary cavity; tree
Mountain Chickadee	resident	6	14-15	18-21	primarily insectivorous; seeds in fall and winter	secondary cavity
Pygmy Nuthatch	resident	5-9	14-16	14-22	primarily insectivorous; seeds in fall and winter	secondary cavity
White-breasted Nuthatch	resident	5-7	12	26	primarily insectivorous; seeds in fall and winter	secondary cavity
European Starling	resident	4-5	12	21	largely insectivorous; fruit; other plant material	secondary cavity
Western Bluebird	resident	4-5	14	22	insects; fruit	secondary cavity
House Wren	summer resident	4-7	12-14	17	primarily insectivorous	secondary cavity
Violet-green Swallow	summer resident	4-6	14-15	23-24	Insectivorous	secondary cavity
American Robin	resident/migratory	3-4	12-14	13	largely frugivorous; invertebrates	typically tree or platform
Common Raven	resident	5	21-25	4-7 wk	omnivorous (small reptiles, small mammals, fruit, invertebrates, grains,	tree, platform, cliff wall
Steller's Jay	resident	4-5	16	16	largely seeds; also insectivorous	tree
Broad-tailed Hummingbird	summer resident	2	16-19	21-26	nectarivorous; insectivorous	tree; man-made structures
Eurasian Collared-Dove	resident	2	15	18	largely granivorous; also eats insectivores	largely trees; sometimes man-made structures
Mourning Dove	resident/migratory	2	14	13-15	largely granivorous; also eats insectivores	trees; ground when trees absent
American Crow	resident	4-5	16-20	31-36	omnivorous (small reptiles, fish, amphibians, small mammals, fruit,	trees
Lesser Goldfinch	summer resident	3-5	12-15	13-17	largely granivorous; also eats insects	trees
House Finch	resident	4-5	13-14	16	largely granivorous; fruit; invertebrates	largely trees; sometimes man-made structures or
Pine Siskin	nomadic	3-4	13	15	largely granivorous; also insectivorous	tree
Hairy Woodpecker	resident	3-7	12-15	28-30	largely insectivorous; sometimes seeds in fall and winter	primary cavity
Downy Woodpecker	resident	3-8	12	18-21	largely insectivorous; sometimes seeds in fall and winter	primary cavity
Red-shafted Flicker	resident	7	11	24-27	largely insectivorous; sometimes seeds in fall and winter	primary cavity
Acorn Woodpecker	resident	5	11	30-32	acorns, fruit, invertebrates	primary cavity
Dark-eyed Junco	resident/migratory	4	12-13	9-12	largely granivorous; fruit; insects	largely on or very near ground, though nests sometimes in trees
